Solving skin & wound challenges together

20th-24th September 2021

Programme

The Conference is focused on the power of collaborative working to solve the skin and wound challenges that we face every day. At the TVS, we believe that skin health and wound healing is everyone’s business and that change happens when we work together, not in silos.

Our unique programme shares the best new thinking and practices in skin health and wound healing and our digital platform will make sure that it reaches the people it needs to. It is FREE to all UK healthcare professionals and a cost of just £30 to those outside of the UK.

Delegates can join our virtual community and listen to live lectures, interviews and discussions, visit industry exhibition booths, network with colleagues and speakers and join the live conversations during the sessions.

It really is a virtual space where professional connections are made, ideas are shared and collaborative action happens.

Fundamentals in wound care - a part of #TVS2021

Concurrent Session

We are hosting a morning of live lectures aimed specifically at students, carers or those people new to the subject of skin health and wound healing from 9.30 to 12.20.

Our Fundamentals in Skin Care morning is an opportunity for students to gain access to a range of relevant sessions led by our experienced and talented trustees, giving a real feel for the importance of solving skin and wound challenges.

Subjects include:

- Wound healing and assessment
- Which dressing?
- Introduction to pressure ulcer prevention
- Introduction to lower limb wounds
- Basics in diabetic foot ulcers

All the sessions are presented live with plenty of opportunity for discussion and questions in a friendly and supportive environment.
